

# THE HERALD.

CINCINNATI, OHIO, APRIL 21, 1884.

WEDNESDAY, MARCH 21, 1884.

COL. THOS. L. JONES, the next Governor of Kentucky, was in town last Friday.—*Madisonville Times*. Now, we think that you are Knott a true prophet.

The Park City *Daily Times* reports a case of smallpox. The sufferer is a colored man and is being taken care of in a cabin on the farm of Harvey Dishman.

H. N. Holoway Cashier of the banking firm of Holotop & Hollsworth, is missing from Elizabethtown. His accounts were \$700 short and it is supposed he ran away.

A young Decker, who was employed to carry the mail between Spring Station and Uptonville, one day this week cut the sack open, took the contents and skipped out, an other Grayson boy gone wrong.—*Litchfield Sunbeam*.

That bright little sheet, the *Elkhorn Register*, came this week with a nicely written love letter for a wrapper. Now, such things are a rarity down here. We never got but a few in our life and we prize them too highly to make newspaper wrappers out of them.

A note in the kettle is worth two in the nose.—*Breckinridge News*, Feb. 14th, 1884.

A note in the kettle is worth two or your nose.—*Philadelphia Saturday Night*, November 6th, 1883, and *God only knows where she before that*.

The new nickel is worth one cent, as it cost the government, but that to make it. There are already between 2,000,000 and 3,000,000 coined; and of the old nickels there are nearly 120,000,000; of three cent pieces there are 28,000,000, and of one cent pieces 300,000.

Two negro boys were playing marbles in Hopkinsville last week when an outsider picked up some of the marbles, immediately one of the players struck him in the face. As the player stooped to renew the game, the injured boy reached over and stabbed him; the knife entering just behind the heart. His left lung protruded from the opening, but he is thought to be improving.

The *Commercial* comes again with another prediction for governor. It gives Knott 229, Jones 229 and Owsley 169, and 50 uncounted votes. Of the uncounted votes Knott will get 28, Jones 19 and Owsley 13, which makes the first ballot Knott 321, Jones 248 and Owsley 173. After the first ballot, explains the prophet, the main contest will be made in dropping the hindmost candidate, which, if too bitterly pursued, may result in a compromise.

THREE murderers and two thieves broke jail at Madisonville Saturday night and escaped. The cells in the jail were made of steel-shodden iron, on which a file or saw would make no impression, but would snap like glass if sufficient power and leverage could be obtained to operate on them. They took an iron rod from the wash stand and used it as a lever to get an upright lever that was used in connection with several levers in opening and shutting the cell doors, and with this large lever they broke the bars of their cells and two of them stepped out and waited until jailor trifft made his midnight visit. He asked them if all was right and he looked them up as usual and retired. They left about 12:30 o'clock. No arrests have been made yet.

In the *North American Review* for April, the scriptural and the legal aspects of divorce are represented respectively by the Rev. Dr. Theodore D. Woolsey, well known for his instance on the indissolubility of the marriage tie, and by Judge John A. Janesone, a jurist whose long experience with divorce cases in Chicago, both on the judicial bench and at the bar, lends to his observations a very special value. Dr. P. Bender, a Canadian who has studied to some purpose the political, social and economic conditions of his country, under the title, "A Canadian view of Annexation," makes a forcible presentation of the reasons which incline many citizens of the Dominion to regard with favor the idea of absorption by the United States. Senator John A. Logan sets forth the needs which exists for National Aid to Public Schools in the several States and Territories. The Rev. Dr. Howard Crosby writes of "The Dangerous Classes" that menace the perpetuity of civil order and the peace of the community, meaning the manipulators of corporation stocks and the men who having amassed enormous wealth, use it for nefarious purposes. James C. Welling, President of the Columbian University, treats of Race Education; the problem that confronts the philosophic statesman, of the presence in our body politic of a strong negro contingent. The Water Supplies of Cities is discussed by Charles F. Wingate, Ethical Systems by Prof. F. H. Hedge, Street Begging, by Rev. Charles F. Deems, Criticism and Christianity by Dr. F. Frothingham, Published at 30 Lafayette Place, New York, and for sale by booksellers generally.

No Post.

Match the 12th the faculty of the Hartford College met and adopted resolutions favoring the nomination of Prof. W. H. Hayward, of Ohio county for the office of Superintendent Public Instruction. These resolutions are all very nice, but if a man wants an office, we like to see him come out boldly and openly, and say so. Declare himself and go to work with his friends to secure the nomination.

The time for the office to seek the man has not come, so professor, come and announce yourself.—*Litchfield Sunbeam*

If the *Sunbeam* had carefully read our issue of March 16th, he would have seen an announcement of Prof. Hayward as a candidate, and also an editorial in regard to the matter. The "Very Nice" resolutions were brought out by the announcement of a week previous and were fitting tribute to one, than whom none holds a higher place in devotion to the educational interests of Kentucky.

Uping often but,

The following from the Louisville *Post* so thoroughly meets our application as well as we are sure it will that of every Democrat in the State that we give it entire. The people should know of their candidates what they may expect of them before they are called on to vote:

The canvas for Governor has commenced in good earnest. There are three pronounced aspirants in the field and yet the people of Kentucky know no more about their views on important questions of State policy than if they lived in the moon. They have made speeches, it is true, but from the time they open to the time they close, they are engaged in a furious and ferocious strife against the Radical party, the tariff and the fraud by which Tedden was defeated. Never a word have they to say about our State school system, the abuse of the pardoning power, the necessity of a new Constitution or the confusing and intricate tangle in which our State revenue laws are involved.

The people can bring them out if they will. We should know something of the opinions and purposes of these gentlemen. The time is rapidly approaching when a Democratic convention will determine upon their respective claims, and its decision amounts to a vote of the people to have some opportunity of passing upon the measures they prefer, as well as upon the men? A bad man who will adopt a wise policy, is infinitely to be preferred to a good man who will adopt an unwise and vicious policy. We have seen something of the evils of being carried away without the personality of a candidate, without stopping to inquire anything whatever as to his qualifications for the office. That memorable blunder should never be repeated.

We elected one man because he was a good yellow fever nurse. Let us not elect another simply because he only denounces the fraud of '76.

Now that all the avowed candidates are before the people, they should be required to give us some idea of the general policy they propose pursuing in the event of success.

We all know the Republican party is a bad party. We all have heard, it is said that the tariff is a bad tariff. There has been some talk, too, about the great tariff.

The people of the State have settled opinions on all these subjects. Now let us hear something else. We want information on local questions—those nearest home and which affect us much more than those afar off.

Are the criminal laws of the State to be annulled? Are all the difficult and costly verities of juries to be set aside? Are the children of Kentucky to continue to grow up in idleness and vice, unable to decipher the letters of their mother tongue? It is not a very edifying spectacle to see two hundred and fifty thousand citizens of the State staring with vague and superstitious awe at our alphabet—our simple A, B, C's—as if they were Egyptian hieroglyphics or characters of sinister import. Must this continue?

There are numbers reforms needed—are the candidates for Governor in favor of or opposed to them? Let us know. Let us not lurch in ignorance.

After a lingering illness he died in Breckinridge County March 3rd, 1883.

He was formerly a member of Adams Lodge, 179, A. V. M., held at Fortsville, Ody County.

We trust to be highly proper and becoming that the sad intelligence of his death should be duly and respectfully brought to the notice of this the Fordsville Lodge, now A. V. M., on this occasion, and it should inspire with feelings of respect, obligation and duty to desire at least to have a few brief words said commemorative of his life and character.

WHENAS, It has pleased Almighty God to remove by death our much beloved and esteemed brother Eskridge; we must most humbly submit to the decree of the Almighty, we are permitted to express our great sorrow and grief that our dear brother, as a friend and associate, should be so early taken from us in this world forever.

Resolved, That in this death the Masonic fraternity has lost one of its most conscientious and worthy members.

Resolved, That the sympathy and condolence of this Lodge together with a copy of these proceedings be transmitted to the family of the deceased, who feel more sensibly than any others this sad bereavement.
